Subject: Isotech Data

Ron, The Isotech data is attached as pdf files. The files are not large so we decided you could just send them to Jeanne Briskin via email. It may also be useful for ORD scientists to view all the Dimock data we have, so we have also included below some user name/password information for them to access the data in the SCRIBE database. We believe Ralph Ludwig already has access to SCRIBE and just needs this password to see the Dimock data. However, if anyone else from ORD needs SCRIBE access, they can just contact John Gilbert with EPA's Environmental Response Team in Erlanger, KY. John can be reached at gilbert.john@epa.gov or via cell at 513-607-1571.

Thanks, dennis.

Subject: Fw: Isotech Data & Scribe Info

Den, Rich and I talked about this and figured the best way to transmit the data to ORD was directly (see attachment), with instructions for SCRIBE access.

Subject: Fw: Isotech Data & Scribe Info

Jerry -

Rich asked that I send you the following Isotech data and info on how to access the Scribe database for ORD.

Please note that anyone can access Scribe once they have the subscription and password info. Accordingly - the ORD personnel should protect this information.

- Kelley

Subscription information for the EPA Data:

Nonresponsive

This allows you to have a read only file. Anything that is changed in here, will not be changed in the original database.

Attached are three files. The excel version has all the Isotech data as it would look in the residential report in Sheet 1. In sheet 2 is the Isotech data that has been cross tabbed. The other two pdf files are pdf versions of the two sheet from the excel document.

If you have any questions let me know,
